

# OZEANEUM Stralsund

## Digitally more to SEA

Explore the OZEANEUM with Walfred the porpoise

Porpoise Walfred is the mascot of the OZEANEUM Stralsund and accompanies you as an avatar in the free app „Frag Walfred!“. In search of virtual herrings, he guides you in an entertaining way along digital spots at the museum.

In a daily updated overview, you will find all events, guided tours, feeding times and promotions and can be notified in time via push alert. The app also helps with orientation with 360° views and maps of all floors of the museum. The app is suitable for the whole family and individual guests of all ages.

„Frag Walfred!“ was funded by the German Federal Government Commissioner for Culture and the Media as part of the joint project museum4punkt0.

Information on guided museum tours and our audioguide in English, group registration and events:  
[ozeaneum.de/en](http://ozeaneum.de/en)

Delve into the unique underwater world of the northern seas with the 50 impressive aquariums and large interactive exhibitions of the European Museum of the Year 2010.

## Exhibitions

### World Ocean – Diversity of Life in the Sea

Dive below the ocean's surface and discover an underwater world with fascinating biodiversity.

### Baltic Sea Exhibition

The sea at our doorstep takes centre stage: explore detailed habitat reconstructions, masterfully prepared biological specimens and a modern light table.

### Exploration and Utilisation

A virtual dive takes visitors down to the black smokers on the seafloor. Find out more about marine natural resources, global warming and ocean overfishing.

### 1:1 Giants of the Sea

This breathtaking exhibit was developed in cooperation with Greenpeace and displays life-sized whales and other giants of the sea suspended from above. Visitors gaze upward through the virtual ocean while they lay back on the 'seabed'.

## Aquariums

### Baltic Sea Tour

Your underwater journey begins in the Stralsund harbour and takes you across the central Baltic Sea to the Kattegat. Discover jellyfish, sturgeons, lumpfish and swarms of shimmering herring.

### North Sea & North Atlantic Tour

Stroll from the Wadden Sea through the Helgoland aquarium tunnel to the open Atlantic! The oceanic aquarium with an impressive model of a shipwreck holds 2.6 million liters of water and is populated by rays, sharks and schooling mackerel.

## Children's Sea & Penguin Exhibit

The children's play corner has a lighthouse climber and lifelike beach mural. Humboldt penguins live on the roof terrace next door. These agile feathered swimmers can be observed through large windows.
